

Chanute Air Force Base:
75 Year Pictorial History

COLLECTION 200.004

Champaign County Historical Archives

Compiled by: Thomas Kuipers

Creator/Corporate name: Chanute Air Force Base

Inclusive Dates: 1917-2000s

Physical Description: 8 boxes, 7.5 linear feet

Provenance:

The Chanute Air Force Base 75-year pictorial history records were donated to the Champaign County Historical Archives from the defunct Octave Chanute Aerospace Museum upon their closure in 2016. The records in this collection were originally curated and arranged by Donald O. Weckhorst.

Access:

The records are accessible to the public within applicable copyright restrictions and limited to use at the Champaign County Historical Archives of The Urbana Free Library.

Historical Note:

In 1983, Commanding Officer Major General J.D. Moore hired Chief Master Sergeant and Chanute alum Donald O. Weckhorst to be the Chanute Air Force Base historian. Moore tasked Weckhorst with creating a pictorial history book of the base. From 1983-1992, Weckhorst contacted former and active Chanute students, instructors, civilians, and more from throughout the entirety of the base's history seeking sources for the book. This collection contains the donations, correspondence, and other personal records Weckhorst received from more than 300 former Chanute airmen, which were used for the creation of the 1992 publication *75 Year Pictorial History: Chanute Air Force Base*.

Scope and Content Note:

This collection spans nearly the entire history of CAFB as an active military institution from 1917-1993. The bulk of the materials come from Chanute service people that served from the 1910s-1950s. The collection includes considerable correspondence between former service people and base historian Donald Weckhorst. There are also photographs that can and cannot be found within the *75 Year Pictorial History* book. In addition, there is also numerous types of military records, such as orders, assignments, pamphlets, menus, histories of service, and more, as well as newspaper clippings and some publications.

Arrangement: Files are arranged by last name. Each file typically starts with correspondence and ends with ephemera and newspaper clippings. Most photographs lack metadata, so they are typically listed simply as 'photographs'. Item level description was implemented for many files throughout the collection to provide more in-depth description.
